**PRIVACY ACT OF 1974**

On December 31, 1974, President Ford signed Public Law 93-579, (88 Stat. 1896) which added section 552a to title 5 of the United States Code. This new section is known as the Privacy Act of 1974. The act reasserts the fundamental right to privacy as derived from the Constitution of the United States and provides a series of basic safeguards for the individual to prevent the misuse of personal information by the Federal Government.

The Privacy Act provides for making known to the public the existence and characteristics of all personal information systems kept by every Federal agency. The act permits an individual to have access to records containing personal information on that individual and allows the individual to control the transfer of that information to other Federal agencies for nonroutine uses. The act also requires all Federal agencies to keep accurate accountings of transfers of personal records to other agencies and outsiders, and to make the accountings available to the individual. The act further provides for civil remedies for the individual whose records are kept or used in contravention of the requirements of the act.

The Privacy Act also requires the agencies to adopt regulations that list and describe routine transfers of their personal records and to establish procedures for access to and amendment of such records.

**Compilation**

The Office of the Federal Register is required to publish an annual compilation of all Privacy Act rules and notices. Although the compilation will not be available until some time after September 27, 1975, readers may assemble their own compilation by cummulating Privacy Act material as it is published. To facilitate this, all Privacy Act notices and final rules will be published in separate Parts of the FEDERAL REGISTER which may easily be detached and combined.

## APPENDUM TO DCA STATION LIST DIRECTORY

The Director, DCA is also the Manager, National Communications System (NCS), the Chairman, Military Communications-Electronics Board (MCEB), and Director, Worldwide Military Command and Communications System (WWMCCS) Systems Engineering. To the extent that the Director, DCA performs these other functions, the records system described herein pertain to and are available to employees of these organizations, and may be corrected by means of the same processes described for DCA files systems, unless specified otherwise herein.

With the exception of personnel records for Navy officers assigned to DCA activities in the Washington Metropolitan Area, the official military personnel records of military personnel assigned to DCA are maintained by the parent department and that department has the only complete official copies of the military members personnel records file. Responsibility for the completeness and accuracy of these files is invested in the military department. While the DCA commander or office chief may assist the military member in obtaining access or making corrections, DCA does not have the authority either to grant access or make corrections. The documents maintained by DCA on military personnel are copies of records provided by the military departments during the nomination process, copies of personnel correspondence generated during the members tenure in DCA, promotion rosters furnished by the military departments, and copies of orders published by the departments. A few documents are maintained as a result of requirements imposed by the departments ( leave forms for Army and Air Force personnel and SIDPERS for the Army personnel).

In the case of Navy officers in the Washington area, DCA maintains the Navy Officers Service Records and can grant access and make corrections within the purview of NAVPERS 15791, "Bureau of Naval Personnel Manual ".

VOL 40 NO 160 AUG 18 75 XUM

ROUTINE USE - LAW ENFORCEMENT

In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grantor other benefit.

ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of acontract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

**Record source categories:** The Personnel Inventory will consist of individual Employee Qualification Records which have two basic parts: (1) An automated inventory of background experience, education, and performance, and (2) a narrative statement describing distinctive occupational experience.

Computerized Inventory. The automated DISCAS file contains related data which combines to make up an employee profile. The general content and source of these data are described as:

Personal Identification Information: Name, address, position title, grade and other information that describe an individual, his position, and status. The principal source of this information is the SF 50, Notification of Personnel Action, generated by the servicing CPO; other personal data comes directly from the employee.

Skills and Work Experience: Includes functional areas, political/geographic areas, occupational specialties, and foreign language proficiency. This data comes directly from the individual.

Formal Education: Academic study at accredited colleges and universities to include degree or highest level of education attained, academic major and minor, and the name of the institution. This data comes directly from the individual.

Career Related Training: Completed course work from the ICDP Master Training and Education Plan and other training experiences that are related to the employee's overall career development program. Most of this data will come directly from the employee, however, servicing CPO's or training offices may from time to time be required to provide information on completed training.

Career Appraisal: Significant factors from the completed Employee Career Appraisal (DD Form 1917 (Test)) will be cumulatively stored. Copies of each appraisal will be sent to DISCASA by servicing CPO's.

Awards and Recognition: Consists primarily of federal career awards but also includes other awards that would be significant demonstration of ability or personal achievement. This data will come from the individual employee.

Record of Consideration for Vacancies: The DISCAS will record each time an employee's record is reviewed by selecting authorities in consideration for filling a vacancy. This record of consideration will be provided to employees, for their information, on the annual update of the Employee Qualification Record. Up to fourteen of the most recent incidents are listed, showing title, series, grade and the organization where each vacancy occurred, as well as the outcome of each consideration. This is not an accounting of computerized retrieval and referral; it is a report of incidents of merit selection considerations by the appropriate placement authorities. This data will be provided to DISCAS by servicing CPO's after final selection.

Narrative. Each employee will provide short narrative descriptions of their most recent and/or significant positions. The narrative portion of the Employee Qualifications Record is used as a backup for computer screenings and provides elaboration of the skills and experience of each employee.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Data is recorded on magnetic records, punch cards, computer printouts, microform, file folders, and other documents.

**Retrievability:** The data contained in magnetic records can be displayed on cathode-ray tubes, it can be computer printed on paper, and it can be converted to microform for information retrieval; the data in the supporting file folders and other manual records is retrieved manually. Normally, all types of records are retrieved by Social Security Number and name.

**Safeguards:** Building management employs security guards; building is locked nights and holidays. Authorized personnel may enter and leave the building during nonworking hours but must sign in and out.

**Retention and disposal:** Magnetic records are maintained on all Marine Corps personnel while they are in service, and for a period of 4 months after they are separated from the service. Paper and film records are maintained for a period of 10 years after the final transaction.

**System manager(s) and address:** Commandant of the Marine Corps, Headquarters U S Marine Corps, Washington, D C 20380.

**Notification procedure:** Requests from individuals for information should be referred to the SYSMANAGER

Requesting individual must supply full name and Social Security Number.

The requester may visit the Marine Corps Finance Center, 1500 East Bannister Road, Kansas City, Missouri 64197 to obtain information on whether the system contains records pertaining to him or her.

In order to personally visit the above address and obtain information, individuals must present a military identification card, a driver's license, or other suitable proof of identity.

**Record access procedures:** Information on JUMPS may be obtained from the member's local disbursing officer. Information on MMS may be obtained from the member's immediate commanding officer. Requests for information from persons no longer in service should be signed by the person requesting the information. Dates of service, Social Security Number, and full name of requester should be printed or typed on the request. It should be sent to the Marine Corps Finance Center, 1500 East Bannister Road, Kansas City, Missouri 64197.

**Contesting record procedures:** The agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

**Record source categories:** Recruiting offices, disbursing offices, administrative offices, and the individual Marine are the principle sources of the information contained in the JUMPS/MMS record for that person.

**System name:** Bond and Allotment (B&A) System

**System location:** Marine Corps Automated Services Center (MCASC), 1500 East Bannister Road, Kansas City, Missouri 64131; Marine Corps Finance Center (MCFC), 1500 East Bannister Road, Kansas City, Missouri 64197

**Categories of individuals covered by the system:** The allotment system contains all active allotments and limited (12 months) stop history for each active duty, retired, and Fleet Marine Corps Reserve (FMCR) member who authorized an allotment from his pay and allowances.

**Categories of records in the system:** The allotment file contains allotments authorized by the Marines concerned, as provided under instructions issued by the Secretary of Defense.

The B&A automated system is made up of records which contain the following fields (data elements and data sets): Identification Number (Social Security Number (SSN)); Initials of Name (Last, First, Middle); Rank/Category; Last Name and Suffix; Last Pay Date; First Pay Date; Work Date; Amount; Term (in months); Account/Policy Number; Authority/Date/Remark; Bond Owner Name; Bond Owner SSN: Co-owner Beneficiary Flag; Co-owner or Beneficiary Name; Co-owner or Beneficiary SSN; Authority/Date/Remark; Name of Recipient; Street Address/Post Office Box; City and State/Country; Geographic Code (City, State/Country); Zip Code; Authority/Date/Remark.

**Authority for maintenance of the system:** Title 37, United States Code. The authority for continuing deduction for garnishment of pay is outlined in section 459 of Public Law 93-647.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** The purpose of the system is to provide for the payment of allotments and for the issuance, cancellation, of U S Treasury checks and savings bonds as authorized by appropriate directives. The data obtained from the system provides for the control and ultimate disposition of all treasury checks and savings bonds prepared. Allows for the collection of appropriate data, to render an accurate accounting of public funds expended or collected as required by the Navy Comptroller Manual. The allotment file is utilized by the Joint Uniform Military Pay System/ Manpower Management System (JUMPS/MMS) and Retired Pay systems to calculate the monies due active duty, retired, and FMCR members of the U S Marine Corps.

The allotment class and dollar value are displayed on the JUMPS Leave and Earnings Statement (LES) as issued. Copies of the LES are distributed as follows:

Original (white) - Disbursing Officer (DO) having custody of the Personal Financial Record.
Duplicate (yellow) - furnished the Marine concerned.
Triplicate (pink) - furnished the Commanding Officer (CO) for retention on the Marine's service record.
For permanent record retention purposes, one copy will be filed at the MCFC in microform.
The allotment information concerning first, last payment dates, term (if applicable), amount, purpose, and allottee is furnished the CO and DO on an annual basis for audit purposes. This information is prepared as outlined in paragraph 70304, JUMPS Field Procedures Manual.
The total dollar value of active allotments is furnished each retired and FMCR Marine each time a new statement of his account card is prepared.

Verification and/or information concerning a specific allotment may be released (as requested) to the following:

Marine concerned.
Marine's CO
Marine's DO
Recipient of the allotment.
Treasury Department.
Federal Reserve Bank.
Federal Bureau of Investigation.
Naval Audit Service.
General Accounting Office.
Postal Inspectors.

**System name:** JAG Manual Investigations

**System location:** Office of the Judge Advocate General, Department of the Navy, Washington, D.C. 20370; all naval activities which originate JAG Manual Investigations or to which such investigations are routed typically retain copies in local files.

**Categories of individuals covered by the system:** Any individual who participated, who was involved in, who incurred an injury, disease, or death, or who was intoxicated, in connection with an accident, incident, transaction, or situation (except incidents primarily involving questions of Admiralty Law) involving or affecting the Department of the Navy or naval personnel.

**Categories of records in the system:** System contains all documented evidence relevant to the item under investigation; together with an Investigating Officer's Report which makes findings of fact and expresses opinions and recommendations; reviewing authority's actions which either approved or modified the Investigating Officer's Report, or returned the entire record for further investigation or remedial action to perfect the record; and, the results of hearings afforded persons who incurred injuries and diseases, to allow them to explain or rebut adverse information in the record. The Judge Advocate General's correspondence to locate and obtain required investigations is also included with the record. Some records contain only a field command's explanation as to why investigation is not required, together with documents pertient to this lack of requirement. Some records contain only an accident, injury, or death report, prepared for the Department of the Navy, by the Army, Air Force, Coast Guard, or other agency under reciprocal agreements, in situations, where the Navy or Marine Corps could not conduct the investigation.

**Authority for maintenance of the system:** Executive Order 11476, 'Manual for Courts-Martial,' paragraph 133b; 10 U.S.C. 815, 832, 935, 936, 939, and 940 (Uniform Code of Military Justice); 10 U.S.C. 972(5) (requirement to make up time lost due to misconduct); 10 U.S.C. 1201-1221 (Retirement or Separation for Physical Disability); 10 U.S.C. 2733 (The Military Claims Act); 10 U.S.C. 2734, 2734a, 2734b (The Foreign Claims Act); 10 U.S.C. 2736 (Emergency payment of claims); 10 U.S.C. 2737 (Non-Scope Claims); 10 U.S.C. 5031 (Duties of Secretary of Navy); 10 U.S.C. 5184 (Duties of Judge Advocate General); 10 U.S.C. 6148 (Reservist's Disability and Death Benefits); 10 U.S.C. 7205 (Promotion of Accident Prevention and Occupational Safety by Secretary of the Navy); 28 U.S.C. 1346, 2671-2680 (Federal Tort Claims Act); 31 U.S.C. 82, 89-92, 95a (Financial Liability of Accountable Officers); 31 U.S.C. 240-243 (Military Personnel and Civilian Employees' Claims Act of 1964, as amended); 31 U.S.C. 71, 951-953 (Federal Claims Collection Acts); 37 U.S.C. 802 (Forfeiture of Pay); 38 U.S.C. 105 (Eligibility for certain Veterans' Benefits), 39 U.S.C. 406, 2601 (Postal Claims); 42 U.S.C. 2651-2653 (Medical Care Recovery Act).

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Records of JAG Manual Investigations are used internally within the Department of the Navy as bases for: evaluating procedures, operations, and designs with a view to improving the efficiency of the Department of the Navy; determinations concerning status of personnel regarding entitlements to pay during periods of disability, disability benefits, severance pay, retirement pay, increases of pay for longevity, survivors' benefits, and involuntary extensions of enlistments and dates of expiration of active obligated service; determinations concerning relief of accountable personnel from liability for losses of public funds or property; determinations pertaining to disciplinary or punitive action; adjudication, pursuit, or defense of claims for or against the Government; and public information releases. Records of such investigations are routinely furnished to the Veterans Administration for use in determinations concerning entitlements to veterans and survivors' benefits; to Servicemen's Group Life Insurance administrators for determinations concerning payment of life insurance proceeds; to the U.S. General Accounting Office for purposes of determinations concerning relief of accountable personnel from liability for losses of public funds and related fiscal matters; and to the Department of Justice for use in litigation involving the Government. Additionally, such investigations are sometimes furnished to agencies of the Department of Justice and to State or local law-enforcement and court authorities for use in connection with civilian criminal and civil court proceedings.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Paper records stapled together in paper file folders and stored in metal file cabinets, on shelves, and in boxes.

**Retrievability:** Filed in calendar year groupings by surname of individual, bureau number of aircraft, name of ship, hull number of unnamed water craft, or vehicle number of government vehicles. Topics of incidents are cross-referenced.

**Safeguards:** Building employs security guards. Only authorized persons with official interest can be given the record itself. Also, personnel who have had specimens referred to NNMC for a procedure by another facility are temporarily registered by the system. Active Duty and Dependents Retired and Dependents Dependents of Deceased Personnel Foreign Personnel (Diplomatic) Civil Service Examinees Other Beneficiaries

**Categories of records in the system:** Patient Identification records are stored for all personnel registered in the data base. Patient Test Result records are stored temporarily on-line and then placed in off-line storage. Printed displays are filed in the patient chart and are considered a part of the medical record. Laboratory Operating Records are maintained for control of requested procedures from order to final report; a variety of working documents are produced therefrom. Statistical and Quality Control (nonpatient oriented) records are stored to meet professional and management requirements.

**Authority for maintenance of the system:** U.S. Code Title 44, Section 3101

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Information is collected for the purpose of returning, to requesting providers of health care services, properly identified and formatted data depicting physiological states as measured/identified by recognized clinical procedures.

Users are health care providers and medical students and researchers. Access is controlled by the Manual of the Medical Department. Records may be reviewed by committees and/or professional certifying bodies. Laboratory staff personnel use the data base as the source of worklists, for tracking changes in determinations, for answering inquiries, and to maintain control of the operations.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** The computer retains on-line a registration file of current (activity within one year) patients; laboratory findings for inpatients: up to 30 days after discharge or last result entry, for outpatients: up to 90 days after last result entry; and a variety of operational, quality control, and statistical accumulations for brief periods. Paper laboratory records are stored in the patient chart and subject to the same restrictions as the chart. a daily log of laboratory results is retained in a paper form for five years. Magnetic tapes are used for storage of all data listed above.

**Retrievability:** Data is accessed by family member prefix and Social Security number, which are used as the military identification number. Searches by name lead to the number which then serves as the access to the ADP file(s). Pseudo numbers are assigned to foreign personnel and other entitled beneficiaries not having a Social Security number. Laboratory logs are printed daily and are sorted by name.

**Safeguards:** The computer is located in an area observable by laboratory staff 24 hours a day, 7 days a week, but not accessible to the public. Remote terminals are either receive-only or can respond to a command from the system but cannot demand access to it. Passwords are required after a sign in procedure. Manual records and computer printouts are available only to authorized personnel and subject to the protection afforded medical records. Functions allowed from any terminal are controlled by tables.

**Retention and disposal:** Computer data is retained as follows:

ID data--1 year after last contact, then destroyed

Inpatient Results--30 days after discharge/last result, then placed on magnetic tapes, maximum retention specified.

Outpatient Results--90 days after last result, then placed on magnetic tape, maximum retention not specified. Workload date--Varying time frames, generally 30 days (includes Quality Control).

Printed reports are retained as follows: Interm patient reports--at physician's option generally short term, then destroyed.

Patient Reports--Same as Medical Records (archived), typically retained 5 years and then shipped to National Personnel Records Center. Workload Reports--5 days to 5 years for management data, then destroyed. Laboratory log--3 years, then destroyed. Census Reports--Short term, then destroyed.

### N63285 ADMIN

**System name:** Administrative Files System

**System location:** Naval Investigative Service (NIS) Headquarters 2461 Eisenhower Avenue, Alexandria, Va. 22331

Decentralized Segments - Naval Investigative Service Offices (NISOs) retain duplicate copies of certain segments of the administrative files. Addresses of these offices are included in the directory of Department of the Navy mailing list.

**Categories of individuals covered by the system:** Past and present civilian, military and foreign national personnel assigned world-wide NIS.

**Categories of records in the system:** Personnel Management System - an automated management information and statistical system containing all needed items of personnel information.

Special Agent Career Development Files - a compendium of Civil Service Performance Evaluation and Ratings and all correspondence unique to the NIS Special Agent, including annual physical examinations, which has a bearing on world-wide assignability, promotion and general career assessment.

Weapons Inventory File - an automated file containing the credential number, badge, weapons and handcuffs assigned to each NIS criminal investigator.

Personnel Security Clearance File - an automated file containing the classified material access level and date of last security clearance for assigned civilian and military personnel of NIS.

Personnel Utilization Data File - an automated file designed to provide statistical information regarding the manner by which available NIS manhours are expended in the execution of its assigned investigative and counterintelligence mission. The file is formed by the submission (monthly) of individual manhour diaries. All assigned personnel input to this system; their manhours are categorized by function.

Freedom of Information and Privacy Requests File. Records relating to requests for information pursuant to the Freedom of Information Act and the Privacy Act of 1974, and responses thereto. Duplicate copies are also retained by the Naval Intelligence Command, 2461 Eisenhower Avenue, Alexandria, Va. 22331.

AUG 18 1975 XU

**Authority for maintenance of the system:** 5 U.S.C. 301; Departmental Regulations

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** The Personnel Management System is used in preparation of virtually all personnel documents and personnel statistical studies. It provides such information as the average grade, the total number and composition of personnel at each NIS component and the past assignments of personnel. It is used on a daily basis by personnel technicians and management level personnel in the formation and execution of staffing actions for the various NIS components, informal verification of employee's tenure and the compilation of necessary statistical studies.

Special Agent Career Development Files - The information in these files is used for within-agency decisions regarding reassignment, promotion, career training and long-range development. They form within-agency repository for both adverse and favorable documents regarding Special Agents. The files have a long-range fuction - that of forming the basis for law enforcement retirement service certification. Though part of the file is duplicated in the Official File maintained by the Civilian Personnel Office, the Special Agent Career Development file is considered priviledged information and its contents are not released outside NIS. Within NIS, the files are maintained and controlled exclusively within the Career Services Division, NIS Headquarters and by assigned personnel to that Division. The files are released for review only to senior management personnel of NIS.

Weapons Inventory File - used to identify and inventory credentials, weapons, badges and handcuffs issued to authorized NIS personnel.

Personnel Security Clearnace File - used to informally verify and authenticate security clearances issued to NIS personnel. The file has a daily working purpose of acting as a check sheet for the updating of security clearances. It further is the file referred to when the director, NIS, is required to certify th access level of certain assigned NIS personnel to other Navy commands as well as civilian contractors.

Personnel Utilization Data File - a statistical file from which an in-depth analyses of manhour expenditures are surveyed. The file is highly automated and used exclusively within NIS. The various analyses drawn from the file are used to modify the staffing levels at various NIS components based on actual work level. It further provides a tool to NIS management to gauge the efficiency of all components by comparing their workload with the amount of manhours available.

The records in this system are referred, as appropriate to authorized governmental units, such as Office of Civilian Manpower Management and Civil Service Commission, making various personnel determinations, e.g., retirement, awards, disciplinary action; to law enforcement personnel conducting criminal or suitability investigations; to DoD components, other agencies or industrial firms requiring confirmation of security clearance level; to higher authority for statistical purposes; limited response to credit queries; and medical records to personal physicians.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** The Personnel Management System, Weapons Inventory File, Personnel Security Clearance File and the Personnel Utilization Data File are stored on magnetic tape in an automated system. The Personnel Management System is composed of visible file cards and computer paper printouts; the Personnel Security Clearance File is composed of computer paper printouts and associated Department of Defense security certification documents, the latter being filed in individual file folders; the Weapons Inventory File and the Personnel Utilization Data File are composed of computer paper printouts only.

The Special Agent Career Development files are composed exclusively of paper records in file folders.

**Retrievability:** Information is accessed and retrieved by name only in the Special Agent Career Development File. The Weapons Inventory File is queried by either name only or by item number (i.e., badge, credential, weapon, handcuff serial number).

The Personnel Management System is accessed by name and SSAN; retrieval is by individual data characteristic such as GS-grade level, duty-station, special qualifications, language qualifications or it my be retrieved by name only or in conjuction with the SSAN.

The Personnel Utilization Data File is normally accessed and retrieved by location and functional category of employment (i.e., Special Agent, clerical, etc.). The capability exists, however, to retrieve by SSAN. The Personnel Security Classificaton File is a subordinate file to the Personnel Management System. Accession is by name and SSAN. Retrieval is accomplished by computer paper printout in both alphabetical and duty-station format.

**Safeguards:** All files in this system are protected by limited, controlled access, safes, and locked cabinets and doors. Futher, visitor control and secure computer software measures (where applicable) are utilized.

**Retention and disposal:** Personnel indexed in the Personnel Management System and the Personnel Security Clearance File are deleted from the magnetic tape data storage upon termination of employment. Residual paper records are retained from two to five years.

Personnel indexed in the Weapons Inventory File are deleted at such time as assigned equipment is returned and accounted for. Residual paper printouts are destroyed at least semi-annually.

The Special Agent Career Development Files are semi-permanent and are retained, at least in essential skeletal format, indefinitely.

**System manager(s) and address:** Director, Naval Investigative Service, 2461 Eisenhower Avenue, Alexandria, Va. 22331.

**Notification procedure:** Requests from individuals should be addressed to the System Manager, above. Individuals submitting requests should provide their full name, date of birth, SSAN and dates of employment or assignment with NIS.

In the case of personal visits, individuals requesting access to files in this system will be required to present reasonable proof of identity to minimally include a drivers' license or similar document at least one of which must bear a current photograph and be able to provide (orally) some element of unique identifying data such as name of spouse or a past duty-station with NIS.

**Record access procedures:** Access to files in this system may be gained by written notification or personal visit to the Naval Investigative Service Headquarters at the location specified above. Requests should be directed to the Information and Privacy Coordinator.

**Contesting record procedures:** The agency's rule for access to records and for contesting contents and appealing initial determinations by the inividual concerned may be obtained from the system manager.

**Record source categories:** In the case of Personnel Management System and the Personnel Utilization Data System, the individual employee is the prime source of information both for initial access to the files as well as periodic update. The Personnel Security Clearance File information is obtained as a sub-file to the Personnel Management System. The information for the Weapons Inventory File is obtained from personnel charged with the issuance of various items inventoried therein (with verification by the personnel to whom the items are issued.)

Information for the Special Agent Career Development File is recieved from the individuals supervisors, from various Naval Commands and other Federal and State agencies with whom the Special Agent has had professional contact and from the individual himself. Also, this file contains copies of each physical examination required annually of assigned civilian Special Agents.

**Systems exempted from certain provisions of the act:** None.

**System name:** NIS Investigative Files System

**System location:** Primary System-NIS Records Management Division Administration Department, NIS Headquarters, Hoffman Building, 2461 Eisenhower Ave., Alexadria, Va. 22331.

Decentralized Segments - Naval Investigative Service Offices (NISOs) retain copies of certain segments of the investigative files, and related documentation for up to one year. Addresses of these offices are included in the directory of Department of the Navy mailing addresses. Naval Investigative Service Resident Agencies retain copies of investigative reports during pendency and for 90 days thereafter. They also retain evidence custody cards on persons from whom evidence was seized. The number and location of these Resident Agencies are subject to change in order to meet the requirements of the Department of the Navy. Current location may be obtained from Naval Investigative Service Headquarters.

**Categories of individuals covered by the system:** Persons in the following categories who require access to classified defense information prior to August 1972: Active and inactive members of the naval service, civilian personnel employed by the Department of the Navy (DoN), industrial and contractor personnel, civilian personnel being considered for sensitive positions, boards, conferences, etc., civilian personnel who worked or resided overseas, Red Cross personnel. Civilian and military personnel accused, suspected or victims of felonious type offenses, or lesser offenses impacting on the good order, discipline, morale or security of the DoN. Civilian personnel

seeking access to or seeking to conduct or operate any business or other function aboard a DoN installation, facility or ship. Civilian or military personnel involved in the loss, compromise or unauthorized disclosure of classified material/information. Civilian and military personnel who were of counterintelligence interest to the DoN.

**Categories of records in the system:** Categories of records in the system: Official Reports of Investigation (ROI) prepared by NIS or other military, federal, state, local or foreign law enforcement or investigative body on either hard copy or microfilm. NIS Information reports (NIRs). NIRs document information received by NIS which is of interest to the naval services or other law enforcement or investigative bodies. The information may be of criminal, counterintelligence or general investigative interest.

General Administration Reports (GEN). The investigative purpose of the GEN is to report the results of pre-employment inquiries on applicants for positions as Special Agents with NIS.

Investigative summaries, memoranda for the files and correspondence relating to specific cases and contained in the individual dossier.

Polygraph Data. A listing of persons who submitted to polygraph examination by NIS examiners. The data includes the examinee's name, location and results of the examination and the identity of the examiner.

Case Control and Management documents which serve as the basis for controlling and guiding the investigative activity.

Records identifying confidential sources and contacts with them.

Index to persons reported by 'Name Only'.

Wiretap Data Records. Automated listing of persons who were subjects of wiretapping or eavesdropping operations.

Case Control and Narcotics Data Records. Automated records used only for statistical purposes in accounting for productivity, manhours expenditures; various statistical data concerning narcotics usage and used solely for statistical purposes.

Modus Operandi Files.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** The information in this system is (was) collected to meet the investigative, counterintelligence and security responsibilites of the DoN. This includes personnel security, internal security, criminal and other law enforcement matters all of which are essential to the effective operation of the department.

The records in this system are used to make determinations of; suitability for access or continued access to classified information, suitability for employment or assignment, suitability for access to military installations or industrial firms engaged in government projects/contracts, suitability for awards or similar benefits; referral to other law enforcement or investigatory authorities for law enforcement purposes; use in current law enforcement investigation of any type including applicants; use in judicial or adjudicative proceedings including litigation or in accordance with a court order; insurance claims including workmens compensation; provide protective services under the DoD Distinguished Visitor Protection Program and to assist the U.S. Secret Service in meeting its responsibilities; Congressional interest including the General Accounting Office; respond to the Freedom of Information and Privacy Acts; use for public affairs or publicity purposes such as wanted persons, etc.; referral of matters under their cognizance to federal, state or local law enforcement authoritics including criminal prosecution, civil court action or regulatory order; disclosure to federal intelligence/counterintelligence agencies of matters under their preview; disclosure to foreign government organizations of criminal and counterintelligence information necessary for the prosecution of justice, or for mutual security and protection; advising higher authorities and naval commands of important developments impacting on security, good order or discipline; reporting of statistical data to naval commands and higher authority; disclosure to the National Archives; use by other investigative unit (federal, state or local) for whom the investigation was conducted; release to defense counsel, disclosure in course of acquiring the information, input into the Defense Central Index of Investigations.

Users of the records in this system include employees of the NIS who require access for operational, administrative or supervisory purposes; DoD criminal investigative, investigative and intelligence units; federal, state and local units engaged in criminal investigative, investigative and intelligence activities; federal regulatory agencies with investigative units, DOD components making suitability determinations; federal, state or local judicial or adjudicative bodies; Congressional bodies, including the General Accounting Office who require access within the scope of their jurisdiction for those authorized purposes enumerated above to the extent that those purposes are within the scope of their authority. Commercial insurance companies in those instances in which they have a legitimate interest in the results of the investigation, but only to that extent and provided an invasion of privacy is not involved.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Paper records in file folders, on cards and on microfilm. Automated records on magnetic tape.

**Retrievability:** NIS permanent files are filed by terminal digit number. In order to locate the file it is necessary to query the Defense Central Index of Investigations (DCII) computer using the name of the subject and at least one other personnel identifier such as date of birth, place of birth, social security number or military service number. Files may also be retrieved by a case control number assigned at the time the investigation is initiated. Copies of the files in the NISOs and Resident Agencies are retrieved by name.

**Safeguards:** NIS investigative files (permanent and temporary) are maintained and stored in open shelves and filing cabinets located in secured areas accessible only to authorized personnel. Dated files are retired to the Washington National Records Center where retrieval is restricted to NIS authorized personnel.

**Retention and disposal:** Retention of completed NIS investigative files on Personnel Security Investigations (PSI) is authorized for 30 years unless adverse information is developed in which case they may be retained permanently. PSI files on persons considered for affiliation with DoD will be destroyed within one year if the affiliation is not consummated. Criminal files may be retained permanently. Counterintelligence files on persons affiliated with DoD may be retained permanently. Such records on persons not affiliated with DoD must be destroyed within 90 days or 1 year under criteria set forth in DoD Directive 5200.27, unless retention is required by law or specifically approved by the Secretary of the Navy. Files retained in the NISOs and Resident Agencies are temporary and are destroyed after 90 days or 1 year, as appropriate.

**System manager(s) and address:** The Director, Naval Investigative Service has ultimate responsibility for all NIS file holdings. Management of NIS permanent files is the direct responsibility of the Assistant Director for Administration. NISO Commanding Officers are responsible for files retained in their NISO subordinate Resident Agencies.

**Notification procedure:** All requests relative to the retention and/or releasability of NIS investigative files should be addressed to the Director, Naval Investigative Service, 2461 Eisenhower Avenue, Alexandria, Va. 22331. Requests must contain the full name of the individual and at least one additional personal identifier such as date and place of birth, social security number or military service number. Personal visits by requesters should be confined to the Naval Investigative Service headquarters at the above address. It should be borne in mind that the vagaries of the automated indexing system might preclude a same day response. Persons submitting written requests must properly establish their identity to the satisfaction of the NIS. Where a question exists a signed, notarized statement or other certified form of identification will be required. Individuals appearing in person may present proof of identification in the form of military ID card, valid driver's license, or other suitable form of identification bearing a photograph and signature. Attorneys or other persons acting on behalf of a subject of a record must provide a notarized authorization from the subject of the record.

**Record access procedures:** Individuals may make inquiries relative to NIS records maintained on them thru the NIS Information and Privacy Coordinator Naval Investigative Service Headquarters, at the address specified in the previous paragraph.

**Contesting record procedures:** The Agency's rules for access to records and for contesting contents and appealing initial determinations by the individual concerned may be obtained from the SYSMANAGER.

**Record source categories:** See EXEMPTION.

**Systems exempted from certain provisions of the act:** Parts of this system may be exempt under 5 U.S.C. 552 a (j) or (k), as applicable. For additional information contact the System Manager.

**Categories of individuals covered by the system:** Any person described as a subject, a victim, or a cross-reference in an investigation completed by or for a DoD investigative element when that investigation is retained by the element and the name is submitted for central indexing.

**Categories of records in the system:** Composed of locator references to investigations conducted by or for DoD investigative elements and retained by them. Index records contain the name and other personal identifying information on individuals who were indexed.

Reference to an investigation maintained by one of the investigative records repositories. It identifies the individual by name and personal identifiers, the custodian of the file, the year indexed and the number used by the repository to locate the file.

A record input by either Army investigative activities or DIS reflecting the existence of an investigation in progress. It identifies the subject individual by name and personal identifiers, the location of the open investigation, the year indexed and the number used to locate the investigative file.

Record of a National Agency Check (NAC) investigation in progress. It identifies the subject individual by name, personal identifiers, the case number, the category of the requester of the NAC, and the type of NAC being run.

A record of completed favorable national agency checks (e.g., no records). It identifies the individual by name and personal identifiers, the date the NAC was completed and the agencies that were checked.

Composed of names of persons referenced in files who are not fully identified, but about whom sufficient information exists that meets retrieval criteria. It identifies the individuals by name, custodian agency of the file, year of the index, and the number used by the repository to locate the file. Positive identification is impossible from the index and may well be impossible from the case file itself.

**Authority for maintenance of the system:** 5 U.S.C. 301 Departmental Regulations

44 U.S.C. 3101 Records Management

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** File tracing information is collected and maintained in the indices so that authorized users may determine the existence and location of DoD investigative records.

NAC history information is maintained for authorized users in granting clearances or access to defense installation, entry into military service or employment in sensitive civilian positions.

Activities listed under the LOCATION caption are the principal users and (with the exception of DISCO) the file custodians. Listed terminal holders (with the exception of DISCO) may release general DCII information to:

Other DoD investigative elements, DoD agencies and elements of the Military Departments designated by the departments.

Accredited representatives of the Secretary of Defense and the Joint Chiefs of Staff.

Accredited Federal criminal and civil law enforcement agencies including those responsible for conducting their own investigations as to the suitability for employment or access of current or potential employees formerly affiliated with the DoD.

State and local criminal law enforcement agencies.

Other accredited Federal agencies serviced by the Civil Service Commission but with a need to evaluate the suitability of potential employees formerly affiliated with the DoD.

Congress, including the Government Accounting Office.

The AUTODIN system which transmits formatted data over telecommunications circuits facilitates the collection of transactions from contributors to update the index and to disseminate index information to the requesters.

The Defense Case Control System (DCCS) and the National Agency Check Control System (NCCS) which are described separately in this notice.

It should be noted that information contained in the system is regarded as the property of the submitting activities. DIS can neither monitor, nor assume responsibility for the propriety or accuracy of all the data in the system.

Transfer of information from this records system to other DoD components is regarded as a routine intra-agency use under the provisions of 5 U.S.C. 552a3(b)(1). The use of the DCII to refer inquiries to other DoD elements, where there is no release of DCII information itself is not deemed to require an accounting.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Master Index data is maintained in direct access storage devices, disk and data cell. It is also contained on magnetic tape for continuity of operations purposes to permit processing at alternate locations in the event of computer failure.

Name Only Index data is maintained on magnetic tape and microfiche. Each contributor is provided his portion on a quarterly basis.

**Retrievability:** Master Index records are accessed through name and at least one personal identifier (PID). Personal identifiers are: date of birth, place of birth, social security number and the last four (4) digits of military service number. Inquiries may enter the system in card form or by being keyed in at remote terminals. A non-standard retrieval capability also exists which permits retrieval without PID, or on parts of a name, and produces references to all individuals by that name. It should be noted that in many cases, the subject's SSAN is necessary to make a positive identification.

Name Only Index records are accessed through the name or some portion thereof. Records are retrieved based on an exact match with the name submitted. Inquiries may enter the system only in card form.

**Safeguards:** Generalized validation is provided in batch retrieval through program edits to prevent unauthorized access.

User terminals with access to the Master Index are located in controlled access areas. Access to the system is limited to specified time of the day. Terminals are connected via dedicated data circuits which prevent access from standard dial-up telephones.

Activities must be a part of DoD and accredited on the basis of authorized requirements before a new terminal is established or before batch requests will be honored and processed. Terminal holders and activities authorized to batch process requests are responsible for the authority and need to know of individuals and agencies on behalf of which they search the index.

The computer room is located within a building controlled by security personnel at all times. Identification badges are required for entrance. Access to the computer room is controlled by a combination lock on the entrance. Critical backup files are stored in locked fireproof data safes.

**Retention and disposal:** Retained for as long as files are retained. When the record repository disposes of the file, they are responsible for deleting all index tracings pertaining thereto, in accordance with established procedures. Processing of a deletion transaction flags the computer record which precludes it being given out thereafter. Such flagged records are eliminated from the system during periodic file restructuring procedures.

Open Case Tracings. Retained for as long as the investigation is open. When the investigation is completed, the contributor replaces the open case tracing with a file tracing as described above.

NAC History Tracings. Retained for a period of four (4) years from the date of completion and then automatically deleted unless specific action is taken sooner to delete the record. Should a subsequent favorable NAC be completed, the entering of a new history record will delete the first history record.

NAC Pending Tracings. Retained until completion of the NAC at which time they are replaced by a NAC History or file tracing, unless deleted sooner by the originator.

**Authority for maintenance of the system:** 5 USC 301 Departmental Regulations

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Records of diving accidents and injuries are evaluated by Naval Safety Center analysts to determine existence of problem areas and to detect trends. The records are correlated with the diving log reports and used as a basis for recommending changes in operating procedure, equipment, decompression schedules and training requirements. Individual reports and compilations of accidents and injuries are routinely furnished to activities within the Navy having responsibility for diving safety. Reports are also furnished to Government or private research institutions engaged in studies relating to the prevention or treatment of diving injuries or the design and usage of underwater equipment.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Authority for maintenance of the system:** 5 USC 301 Departmental Regulations

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Accidental injury records are used to compile a variety of statistical reports which are routinely published or prepared at the request of Navy forces afloat and shore

activities. Individual injury reports are selected and reviewed by Naval Safety Center analysts in order to detect problem areas relating to operating procedure, training and equipment usage and malfunction. Results of these studies which may include individual injury reports are provided to commanding officers and to all echelons within the Navy having responsibility for the allocation of resources or the implementation of the Safety Program. Individual injury records are correlated with data contained in other personnel files in order to detect unfavorable trends within an activity and to recommend appropriate corrective measures. Individual records and statistical summaries are provided on request to all Government activities having a legitimate need for such information. Individual records and summary data are provided to contractors and research activities in connection with projects either funded by or deemed potentially valuable to the Department of the Navy.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Categories of individuals covered by the system:** Incumbent and former civilian employees in and applicants for sensitive and nonsensitive postions at Department of the Navy appropriated fund activities.

**Categories of records in the system:** The records are comprised of (1) reports and other investigative material and information developed by investigations conducted by Federal investigative agencies pursuant to statute and executive order; (2) reports of arrest, criminal activity and theirdisposition, (3) results of the review of the

reports by the NCCG, including the security or suitability determination made on the case; (4) copies of correspondence regarding the case and/or reflecting the determination made by the NCCG; and (5) an index file card on each case.

**Authority for maintenance of the system:** (1) Executive Order 10450 (as amended), 'Security Requirements for Government Employment'. (2) 5 USC 7532, 'Suspension and Removal'.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** The records are maintained (1) to meet the statutory requirements of 5 USC 7532 and E.O. 10450 which require the establishment and maintenance of an effective program to insure that the employment and retention in employment of any civilian officer or employee within the Department is clearly consistent with the interest of the national security and which require adjudication and readjudication of the information as appropriate, and (2) to have the material furnished by the Civil Service Commission readily available for return to the Commission upon request. Upon receipt of investigative reports and security information on civilian employees and applicants, the NCCG reviews the material. The Office of Civilian Manpower Management (OCMM) Security Branch then transmits the material to the employing activity with a letter or stamped endorsement apprising the command of the security determination made by the NCCG. During the period that the reports and documents are at an activity, the material is under the custody of the activity's Security Manager. Following the review of the material by the activity's commanding officer or his designee, the material is (1) returned to the source from which received, if required, (2) retained until the employee is separated, or (3) destroyed if it is of no further value. If the employing activity determines that an adverse action against the employee is warranted based on information in the report, appropriate action in accordance with Civil Service Commission suitability procedures is initiated by the activity. In some cases the NCCG will make a suitability determination. Other users of the records may include members of Security Hearing Boards and officials and employees of the Department of the Navy in performance of their official duties related to the Department of the Navy Civilian Personnel Security Program.

**N96021/23**

**System name:** Training and Employee Development Record System

**System location:** Office of Civilian Manpower Management (OCMM), Regional Offices of Civilian Manpower Management (ROCMM's), Capital Area Personnel Services Office - Navy (CAPSO-N), and Navy Staff, headquarters and field activities employing civilians. Mailing addresses are provided in the Department of Navy directory published in the Federal Register.

**Categories of individuals covered by the system:** Navy civilian employees, full-time and part-time, U.S. citizens and foreign national direct hires receiving training supported by the Federal Government, paid from appropriated funds. Navy military personnel may be included in the automated training information system, and non-appropriated funded personnel may be included in some of the stations' manual records

**Categories of records in the system:** Under the Departments' Training Requirements and Information Management System (TRIM), or other locally developed systems, automated and nonautomated records are maintained reflecting information pertaining to the employees' identification, social security number, occupational status (series, grade level, and supervisory status), course identification, course length, category and purpose of training received, date on which training was completed, associated costs, pre-post test results, et.al. input documents for the system include, but is not limited to completed NAVSO Forms 12410/19 and /19A, Training Report, Authorization and Record, keypunched cards. The manual files are

maintained in paper folders containing employee's registration and/or record of training documents. Under the Navy's Apprentice, on-the-job Training Program, and similar trainee intake programs, manual and automated records are maintained, reflecting information pertaining to subject employee's identification, date of birth, entrance date to program, dates and nature of personnel actions which occurred during fiscal year, student progress, and statistical data which effects the numbers of apprentices in training as of a given date. At OCMM, nomination forms and documents (non-automated) for the Department of the Navy's centrally-administered education and training programs are maintained. The manual files contain the candidate's nomination documents, training request, enrollment and registration and other documents related to training. Manual files are maintained at OCMM, the ROCMM's, CAPSO-N, and the several naval installations regarding courses conducted on their premises, or for which they sponsor, listing such things as completion dates, and course participants. Additionally, manual files are typically found at the field activities containing information regarding an employee's supervisory status, an indication as to whether or not he/she has participated in supervisory training. Files are often maintained regarding an employee's certification/recertification or demonstrated proficiency in one or more of the Navy's skills areas; an activity-wide annual training plan should also be maintained, as well as individual training plans. Files are also maintained regarding professional licenses held by station personnel.

**Authority for maintenance of the system:** Title 5, USC 4103, 'Establishment of Training Programs,' Title 5, USC 4118, 'Training,' Title 5, USC 4115, 'Collection of Training Information' Agreement between the Department of the Navy and the Department of Labor, Bureau of Apprenticeship and Training, 'Registration of the Navy Apprentice Program' - June 1968

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Officials and employees of the Department of the Navy in the performance of their official duties related to the management of the Department's civilian employee training programs, the design, development, maintenance and operation of the manual and automated system of record keeping and reporting; the screening and selection of candidates for centrally-administered programs; and administration of grievance, appeals, complaints, and litigation involving the disclosure of records of the training programs. Representatives of the United States Civil Service Commission on matters relating to the inspection, survey, audit or evaluation of Navy civilian training programs, or such other matters under the jurisdiction of the Commission. ROUTINE USE - LAW ENFORCEMENT

In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.

ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION

A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grantor other benefit.

ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION

A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of acontract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

ROUTINE USE - LAW ENFORCEMENT
In the event that a system of records maintained by this component to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency, whether federal, state, local or foreign, charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, rule, regulation or order issued pursuant thereto.
ROUTINE USE - DISCLOSURE WHEN REQUESTING INFORMATION
A record from a system of records maintained by this component may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or other pertinent information, such as current licenses, if necessary to obtain information relevant to a component decision concerning the hiring or retention of an employee, the issuance of a security clearance, the letting of a contract, or the issuance of a license, grantor other benefit.
ROUTINE USE - DISCLOSURE OF REQUESTED INFORMATION
A record from a system of records maintained by this component may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the letting of acontract, or the issuance of a license, grant, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.
ROUTINE USE WITHIN THE DEPARTMENT OF DEFENSE
A record from a system of records maintained by this component may be disclosed as a routine use to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel security actions and criminal investigations of the Component requesting the record.

### S111.11DCRA-AA

**System name:** Atlanta Personnel Data Bank System.

**System location:** Primary System - Office of Civilian Personnel, Employment and Management Assistance Division (DCRA-EE), Defense Contract Adminstration Services Region (DCASR) Atlanta. Decentralized Systems - Birmingham District Civilian Personnel Office and Orlando District Civilian Personnel Office.

**Categories of individuals covered by the system:** Civilian Personnel currently employed by the DCASR Atlanta.

**Categories of records in the system:** Data on current position occupied by employee, data on employee's current employment status with DSA, training data, and selected personal data, including: social security account number (SSAN), name, sex, date of birth, age, physical handicap, Government insurance, veteran's preference, military reserve status, retired military status, education, and whether individual passed the Federal Service Entrance Examination or Professional and Administrative Career Examination.

**Authority for maintenance of the system:** 5 U. S. C.,Sec. 301, 302, E.O.10561.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Information is used as follows: Personnel Alert Register - As suspense list for Performance Appraisals, Step Increases, Career Status, Save Pay, and Leave Category Change. Accepted/Rejected Transaction List - Used to check and make correction to the monthly input to the data system. Retention Register - Maintained on current basis reflecting each competitive level affected by a reduction-in-force. Rotation Schedule - Maintains current status of employees occupying positions which require continuous contact with contractors. Notification of Pay Change - Standard Form (SF) 1126 used for processing pay changes. A copy of the SF 1126 is sent to the Payroll Office for use in processing the pay change. Input Cards for Headquarters Defense Supply Agency (DSA) Automated Civilian Personnel Data Bank System - Used to transmit data input to the Headquarters DSA Automated Civilian Personnel Data Bank System, which system uses the data to prepare reports required by the Executive, Legislative and Judicial Branches of the government, and to provide information to officials of the Defense Supply Agency for effective personnel administration. All segments of the system, except as noted above, are used in the Office of Civilian Personnel.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Computer paper printouts filed in binders and stored in file cabinet except for Notification of Pay Changes, distributed as required and Input Cards and magnetic tape which are stored in the Computer Room at DCASR Atlanta.

**Retrievability:** Filed by title of System Component and/or alphabetically by last name of employee. Records on magnetic tape retrieved by SSAN.

**Safeguards:** Magnetic tapes are maintained in a tape library which are accessible only to authorized personnel. Computer personnel who process the reports are appropriately cleared.

Paper records are maintained in files in the Civilian Personnel Office in areas accessible only to Civilian Personnel Office employees. During non-duty hours, the Civilian Personnel Office is locked.

**Retention and disposal:** Records are maintained for three months after which they are destroyed (updated reports are furnished monthly) except as follows: Notification of Pay Changes become a permanent record in the Official Personnel Folder and Retention Register is destroyed after two years unless an appeal is pending.

**System manager(s) and address:** Civilian Personnel Officer, DCASR Atlanta.

**Notification procedure:** Written or personal requests for information may be directed to the SYSMANAGER. Employee need only to supply full name and organization.

**Record access procedures:** Written or personal requests are to be directed to the Office of Civilian Personnel, DCASR Atlanta. Requesting individual should be able to certify to his/her identity. Official mailing address is contained in the Department of Defense Directory in the appendix to the DSA systems notice.

**Contesting record procedures:** The agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the SYSMANAGER.

**Record source categories:** Official Personnel Folder and other personnel documents, activity supervisors, applications and forms completed by the individual.

**Systems exempted from certain provisions of the act:** NONE

**Authority for maintenance of the system:** 5U.S.C., Sec. 301, 302, 2951, 2952, 2954, E.O. 10561. Provides the Management Information System required of Federal agencies in Federal Personnel Manual (FPM) Chapter 250, Subchapter 1-4. Provides a means of automating the production of pay change notifications and reduction-in-force information required by FPM Chapter 293

VOL 40 NO 160 AUG 18 75 XUM

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** The information in the system is collected to provide recurring and one-time reports to DCASR management to use for manpower planning purposes and for such related purposes as Upward Mobility and Equal Employment Opportunity. The system is also used to provide information to the individual on certain records maintained on him/her in the system. The users of the system are limited to current DCASR employees; DCASR operating management; and Defense Supply Agency (DSA) management. Employees use the information in the system to determine current benefits accruing to them from Federal employment and similar purposes. Operating management uses the system to track the performance of personnel programs and to do effective manpower planning. The Civilian Personnel Office uses the system to obtain in an automated form reports or other documents already provided in a manual form.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Records in the storage are maintained on magnetic discs and/or magnetic tape. Printouts are stored in file drawers.

**Retrievability:** Records may be retrieved from the system by matching any elements of data in any record. Normally records are retrieved by name, social security number, organizational code, position identifiers.

**Safeguards:** The system can be accessed only by programs prepared by the Office of Systems and Financial Management and access to the computer room is tightly controlled. Printouts are stored in locked file drawers in the Office of Civilian Personnel.

**Retention and disposal:** Tapes used to create the current tape are erased after 90 days. Printouts are destroyed when superseded by an updated printout.

**System manager(s) and address:** Civilian Personnel Officer, DCASR Dallas.

**Notification procedure:** Individuals can determine whether the system contains records pertaining to them by contacting the SYSMANAGER. Official mailing address is contained in the Department of Defense directory in the appendix to the DSA systems notice. Current employees of the DCASR should furnish full name and social security number. Former employees of the DCASR should furnish full name, social security number and title, series and grade of the last position held at the DCASR.

For personal visits, current employees of the DCASR need only identify themselves verbally; former DCASR employees need to present some form of appropriate identification such as a valid driver's license.

**Record access procedures:** Individuals may be notified how to gain access to any record by contacting the SYSMANAGER.

**Contesting record procedures:** The agency's rules for contesting contents and appealing initial determination by the individual concerned may be obtained from the SYSMANAGER.

**Record source categories:** All information in the system is taken from documents which are filed in the employee's official personnel folder.

**Systems exempted from certain provisions of the act:** NONE

**S111.11DDTC-R**

**System name:** 111.11 Local Civilian Personnel Data Bank

**System name:** 155.53 Industrial Personnel Security Clearance File

**System location:** Defense Industrial Security Clearance Office, Defense Construction Supply Center, P.O. Box 2499, Columbus, Ohio 43216

**Categories of individuals covered by the system:** Employees of Government contractors who have been issued, now possess, or are in process for personnel security clearances, including Overseas Security Eligibilities.

**Categories of records in the system:** Information contained in each record in the automated portion of the system may include: name of the individual; aliases; maiden name; date of birth, place of birth, Social Security Account number; name and address of employer; level of security clearance granted; date security clearance granted; type of investigation; date of investigation; identity of investigating agency; file or case number; location of file; record of Communication Security (COMSEC) security clearance and sequential record of security clearance terminations, transfers and reinstatements.

Information contained in each record in the manual portion of the system may contain the original application for security clearance (Personnel Security Questionnaire); a copy of the personnel security investigation; a record of security clearance; record of COMSEC security clearance; Overseas Security Eligibility; foreign travel reports; all correspondence concerning the processing of the initial clearance, termination, reinstatement, transfer, emergency suspension, revocation or denial of security clearance; adverse information reports; security violation reports; and internal Government correspondence and interoffice memoranda relative to the security clearance process.

**Authority for maintenance of the system:** Presidential Executive Order 10865, Safeguarding Classified Information Within Industry.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** The automated portion of the system is retained as a central record of industrial security clearances granted. Access to this record is restricted to authorized Defense Supply Agency employees. The Defense Industrial Security Clearance Office will verify security clearance status only to cleared

Department of Defense contractors and authorized Government agencies. Alsoe on occasion, the clearance record may be used to reconcile security clearance records maintained by the individual's employer.

The manual portion of the system serves as a central repository for all hard copy material concerning an applicant for industrial security personnel clearance. All information contained in this record is used to back up the security clearance determination. The manual system also contains suspense records for cases in adjudication and Overseas Security Eligibility control records. Access to this record is permitted only to personnel of the Defense Industrial Security Clearance Office or authorized Federal Government investigative agency personnel during an official investigation.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Automated Records are maintained in computer disc packs, magnetic tapes, and associated data processing files used to initially build or update the master file. The individual records in the manual part of the system are microfiche, 5 x 8 cards and hard copy paper records maintained in file folders.

**Retrievability:** Automated records are accessed by individual Social Security Account number. Computerized indices are required to retrieve records from the system. Manual Records are accessed by Social Security Account number or alphabetically by name.

**Safeguards:** In the automated part of the system special codes, available only to authorized Defense Supply Agency personnel, are required to access records by means of cathode ray tube readers located only in the Defense Industrial Security Clearance Office area. Access to the manual records is limited to authorized personnel of the Defense Industrial Security Clearance Office. The Defense Industrial Security Clearance Office area is on a military controlled installation and segregated from other Government operational areas. All visitors are badged and escorted. During nonworking hours the entire area is secured and protected by a perimeter alarm system and roving guard patrols, motorized and on foot.

**Retention and disposal:** The automated records are retained for 25 months following the termination of a security clearance. A record concerning an individual is retained, following termination, until the individual would reach the chronological age of 80 years in those cases where adverse information is existant or the clearance is terminated because of the death of the holder. Destruction is accomplished through degaussing the disc pack entry or magnetic tape. Retention of the manual records is authorized for 30 years after the date of the last action; however, records are purged 10 years after the date of the last action. Destruction is by burning. Microfiche records are updated at approximately 30-day intervals and superseded records are burned.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Purposes of this system are to prepare reports required by the Executive, Legislative and Judicial Branches of government, and to provide information to officials of DSA for effective personnel administration.

Information is used: To provide management data for use of HQ DSA and Field officials. For transfer of current data to the Civil Service Commission on a monthly basis for inclusion in their Central Personnel Data File.

For disclosures to members or committees of Congress with a stated valid need for the information in the performance of their official duties. To furnish or publish information on the DSA Civilian workforce to Federal Agencies, the Congress, or courts of law, and other Freedom of Information Releases.

To provide information in litigation and other administrative review processes.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Magnetic tape and disc, computer paper printouts, microfiche.

**Retrievability:** Records identified to a specific civilian employee are accessed and retrieved by social security account number.

**Safeguards:** Paper printouts or microfiche records which contain only statistical information are released to responsible persons whose stated needs are not in violation of Federal Statute.

Paper printouts or microfiche records which contain individually identifiable information are releasable only under conditions authorized by Federal Statute.

Records are secured in appropriate storage and/or file cabinets when not under the control of Personnel Office officials during duty hours.

During non-duty hours, records are secured in either locked storage and/or file cabinets. The area in which the records are secured is protected by a building security guard system.

Individually identifiable personnel documents will either be hand-carried or will be transmitted in envelopes addressed to a specific office or individual and marked to be opened by addressee only.

Magnetic tape and disc are kept in the computer room which is itself a security container with locked door and access limited to persons appropriately cleared and identified. Tapes and disc packs are stored in a tape library when not used in processing and are logged in and out only to cleared personnel with an official need. Tapes are transmitted to the Civil Service Commission by registered mail or courier. Reports with individual data are closely controlled. Personnel who process these reports are appropriately cleared and maintain continuous observation of reports during all processing phases. Reports are kept under appropriate physical safeguards when not being processed or used.

An individual requesting information in records must identify self and his relationship to the individual upon whom the record information is being requested.

An individual other than the individual of record must specify what information is requested and the purpose for which it would be used if disclosed. The SYSMANAGER or his delegated assistant determines if request is reasonable and consistent with provisions of the Freedom of Information Act and the Privacy Act of 1974.

Physical access, that is the ability to obtain the record, is limited to:

Personnel Office officials
Civil Service Commission officials
Data processing officials
Supervisors for those records which they are authorized to maintain

**Retention and disposal:** Printouts or microfiche reports are considered as working papers to support particular projects, inquiries, studies or administrative need. They will be retained until the purpose for which generated has been met. They will then be destroyed by shredding or burning.

Data maintained on magnetic tape or disc are to be retained for five years. They will then be degaussed.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Computer magnetic tapes or discs. Computer paper printouts. Paper records in file folders.

**Retrievability:** Information identified to a specific civilian employee is accessed and retrieved by social security account number.

**Safeguards:** Records are either secured in locked storage and/or file cabinets or under the constant observation of Personnel Office officials during duty hours.

During non-duty hours, records are either secured in locked storage and/or file cabinets, the records file area is locked, and/or the building in which the records are stored is protected by building security guard. If the records area is not protected by security guard, all records must be locked.

Individually identifiable personnel documents will either be handcarried or will be transmitted in envelopes addressed to a specific office or individual and marked to be opened by addressee only.

Magnetic tapes and disc are kept in the computer room which is itself a security container with locked door and access limited to persons appropriately cleared and identified. Tapes and disc packs are stored in a tape library when not used in processing and are logged in and out only to cleared personnel with an official need. Reports with individual data are closely controlled. Computer personnel who process these reports are appropriately cleared and maintain continuous observation of reports during all processing phases.

Individual requesting information must identify self and his relationship to the individual upon whom the record information is being requested.

Individual other than the individual of record must specify what information is requested and the purpose for which it would be used if disclosed. Personnel office official determines if request is reasonable and consistent with provisions of the Freedom of Information Act and the Privacy Act of 1974.

In order to prevent unauthorized modification of records contents, original records documents may only be reviewed in the presence of a witness designated by the Personnel Office.

Physical access, that is the ability to obtain the record, is limited to:

Personnel Office officials
Civil Service Commission officials
Data processing officials
Supervisors for those records for which they are authorized to maintain

Responsible officials who are granted temporary custody of an original record in order to monitor the review of the record by the individual to whom it pertains, when the individual is geographically remote from the personnel office.

**Retention and disposal:** Records which are filed in the Official Personnel Folder (OPF) are retained in the personnel office until the employee leaves the Agency. At that time the permanent portion of the OPF is transferred to the gaining Federal Agency and temporary OPF records are destroyed by shredding or burning. Copies of records which are furnished to the employee concerned, may be retained at his or her discretion.

Copies of records authorized to be maintained by supervisors or other operating offices are destroyed by shredding or burning when the employee leaves the Agency.

Operating records maintained within the Civilian Personnel Office may be retained up to three years, as needed. At that time, or sooner, they may be destroyed by burning or shredding.

**System manager(s) and address:** Staff Director, Civilian Personnel, HQ DSA, the Director, Office of Civilian Personnel, Defense Construction Supply Center and the Director, Office of Civilian Personnel, Defense Property Disposal Service.

**Notification procedure:** Written or personal requests may be directed to the SYSMANAGER at the activity where the record is maintained. Individual must provide name (last, first, middle initial) and SSAN in order to determine whether or not the system contains a record about him/her. If a written request, individual must provide a return address.

Offices which the requestor may visit to obtain information on whether the system contains records pertaining to him/her: Office of Civilian Personnel, Defense Construction Supply Center, Office of Civilian Personnel, Defense Property Disposal Service.

For personal visits, the individual should be able to provide some acceptable identification, such as employing office identification card.

**Record access procedures:** Written requests are required. The request is to contain the name of the individual (last, first, middle initial), social security account number, return mailing address and telephone number where individual can be reached during the day and a signed statement certifying that the individual understands that knowingly or willfully seeking or obtaining access to records about another individual under false pretenses is punishable by a fine of up to 5,000 dollars. Complete records are maintained only on magnetic tapes or discs and are not available for access by personal visits.

The notices following pertain to systems of records concerning individuals, of which the Defense Investigative Service is the custodian and are as complete as the application of existing directives and guidance will permit. Changes occasioned by the consolidation of systems, the abolishment of systems, or further identification of systems qualifying under 5 USC 552a will be promptly reported in subsequent notices. Because they are not believed to qualify as reportable systems under the Privacy Act, descriptions of telephone directories, locator cards, and rosters which are used only to provide ready contact information and sign-out logs and building pass and property receipts which are used to provide ready and open property information are not included in these notices. Also not believed to require reporting are personal notes that are temporarily maintained as working papers by and at the sole initiative of individual members of DIS. Personal information from working papers that is to be retained, and contact or property information concerning an individual that is to be used for other than that purpose, is incorporated into one of the systems described in this notice.

General Routine Use Statement

In the event that a system of records maintained by this agency to carry out its functions indicates a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

A record from these systems of records may be disclosed as a 'routine use' to a federal, state or local agency maintaining civil, criminal or other enforcement information, (or other pertinent information) to the extent necessary to obtain information relevant to a decision by DIS concerning the hiring or retention of an employee, the issuance of a security clearance, or the provision of grants, contracts or other benefits; or to the completion of an assigned investigation.

A record from these systems of records may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, the provision of a license, grant, contract or other benefit by the requesting agency to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

ROUTINE USE - DEPARTMENT OF DEFENSE

A record from a system of records maintained by this component may be disclosed as a 'routine use' to other components of the Department of Defense if necessary and relevant for the performance of a lawful function such as, but not limited to, personnel actions, personnel secutity actions and criminal investigations of the component requesting the record.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Purpose for which collected.

Personnel security investigative information is collected to insure that the acceptance or retention of persons to sensitive DoD positions, or granting individuals access to classified information, including those employed in defense industry, is clearly consistent with national security.

Criminal investigative information is collected on request to identify offenders, provide facts and evidence upon which to base prosecution and effect the recovery of property which has been wrongfully appropriated.

Information contained in ISR's (see description in RECORD-CATEGORY) regarding criminal, personnel security or counterintelligence matters, when received, is disseminated to appropriate Federal agencies or other DoD investigatve elements.

Criminal and personnel security information is collected during reciprocal investigations conducted for other DoD and federal in-

vestigative elements (or in limited instances, criminal information for local, state or Federal law enforcement agencies) for maintenance and use by the requesting activity.

Information regarding alleged security violations is collected on request to establish whether or not a compromise occured and to identify the personnel involved.

Users of DIS investigative information are:

(1) DIS personnel in the course of their official duties.

(1) DIS personnel in the course of their official DoD agencies, elements of the Military Departments designated by the departments, and representatives of the Secretary of Defense and the Joint Chiefs of Staff

(2) Other accredited DoD investigative components, enforcement agencies.

(3) Accredited Federal criminal and civil law agencies.

(4) State and local official criminal law enforcement investigations to evaluate suitability for employment or access to classified information

(5) Other accredited federal agencies conducting

(6) Congressional committees and the Government Accounting

Specific uses of DIS investigative records are:

To determine the loyalty, suitability, eligibility, and general trustworthiness of individuals for access to Defense information Office. and facilities by the first two categories of users, above.

To determine the loyalty, suitability, eligibility and general trustworthiness of individuals for assignment or appointment to sensitive military duties or to critical sensitive civilian positions by the categories of users, one, two, three and five, above.

To determine the eligibility and suitability of individuals for entry into and retention in the Armed Forces by the second category of users. above.

To provide information for ongoing security and suitability investigations being conducted by Federal agencies by the first three categories of users, above.

To provide information pertinent to the protection of persons under the provisions of 18 U.S.C. 3056, by the first three categories of users, above.

In the event that records maintained in this system indicate a violation or potential violation of law, whether civil, criminal or regulatory in nature, and whether arising by general statute or particular program statute, or by regulation, rule or order issued pursuant thereto, the relevant records in the system of records may be referred, as a routine use, to the appropriate agency charged with the responsibility of investigating or prosecuting such violation or charged with enforcing or implementing the statute, or rule, regulation or order issued pursuant thereto.

To provide information in judicial or adjudicative proceedings including litigation, or in accordance with a court order by the first three categories of users, above.

To make statistical evaluations of DIS investigative activities by the first, second, third and sixth categories of users, above.

To respond to Freedom of Information and Privacy Act access requests, by the first category of users, above.

To provide information in response to DIS Inspector General, and EEO or other complaint investigations and Congressional inquiries by the first and sixth categories of users, above.

To determine the eligibility and suitability of an individual for personnel actions in the Armed Forces of the United States, as deemed appropriate by the second category of users, above.

A record such as identification data, from this system of records may be disclosed as a routine use to a federal, state or local agency maintaining civil, criminal or other relevant enforcement information or to business enterprises to obtain employment records if necessary to obtain information relevant to an assigned investigation.

A record from this system of records may be disclosed to a federal agency, in response to its request, in connection with the hiring or retention of an employee, the issuance of a security clearance, the reporting of an investigation of an employee, or other benefit by the requesting agency, to the extent that the information is relevant and necessary to the requesting agency's decision on the matter.

Transfers of information from this record system to other DoD components is a routine intra-agency use under the provisions of 5 U.S.C. 552a3(b) (1).

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Paper records in file folders, microfilm, magnetic tape or supplementary index cards.

**Retrievability:** Investigations are centrally retrievable through the DIS Case Control System (DCCS) or the Defense Central Index of Investigations (DCII) systems described separately in this notice. ISR's and reciprocal investigations may be retrieved only through a limited manual indexing system.

**Safeguards:** Completed investigative records are maintained and stored in power files, open shelves and filing cabinets which are housed in secured areas accessible only to authorized personnel who are properly screened and have a need to know. Information contained on magnetic tape is secured in the same manner as the DCII, described separately. Recipients of investigative information are responsible for safeguarding information within the guidelines provided by DIS.

**Retention and disposal:** Retention of closed DIS investigative files is authorized for 30 years maximum, except as follows: (1) Files which have resulted in adverse action against an individual will be retained permanently, (2) Files developed on persons who are being considered for affiliation with the Department of Defense will be destroyed within one year if the affiliation is not completed. In cases involving a pre-appointment investigation, if the appointment is not made due to information developed by investigation, the file will be retained permanently. If the appointment is not made for some other reasons not related to the investigation, the file will be destroyed within one year; (3) Information within the purview of the Department of Defense Directive 5200.27, 'Acquisition of Information Concerning Persons and Organizations Not Affiliated with the Department of Defense', is destroyed within 90 days after acquisition by DIS unless its retention is required by law or unless its retention has been specifically authorized by the Secretary of Defense or through the Chairman, DIRC.

Generally, ISR's and limited reciprocal investigations are retained centrally for only 60 days, except as required by 5 U.S.C. 552a(c)(2).

Partial duplicate records are retained from 90 to 120 days by DIS field elements.

**System manager(s) and address:** Director, Defense Investigative Service, Washington, DC 20314

**Notification procedure:** Requests should be addressed to the Assistant for Information, Defense Investigative Service, Washington, DC 20314. The full name, date and place of birth, and social security account number are necessary for retrieval of information. More information or a notarized statement verifying the identity of requesters may be required. The Information Office, at Room 2H043 1000 Independence Ave., Washington, DC may be visited by personnel making inquiries regarding this system. A check of personal identification will be required of all visitors making such inquiries.

**Record access procedures:** Access may be obtained through the Information Office at the address listed above.

**Contesting record procedures:** DIS rules for contesting and appealing initial determinations may be obtained from the Information Office.

**Record source categories:** Categories of sources of records.

Subjects of investigations.

Records of other DoD activities and components.

Federal, state, county and municipal records.

Employment Records of private business and industrial firms.

Educational and disciplinary records of schools, colleges, universities, technical and trade schools.

Hospital, clinic and other medical records.

Records of commercial enterprises such as real estate agencies, credit bureaus, loan companies, credit unions, banks and other financial institutions which maintain credit information on individuals, transportation companies, (airlines, railroad, etc.)

The interview of individuals who are thought to have knowledge of the subject's background and activities.

The interview of witnesses, victims and confidential sources.

The interview of any individuals deemed necessary to complete the DIS investigation.

Miscellaneous directories, rosters and correspondence.

Any other type of record deemed necessary to complete the DIS investigation.

**Systems exempted from certain provisions of the act:** In accordance with subsection 3j(2) of the Act, information maintained by the Special Cases Division of DIS may be exempted from the provisions of subsections (c) (3) and (4); (d); (e) (1), (2) and (3); (e) (5) and (8); (g) and (o). Information maintained by, or at the direction of, this unit includes criminal investigations for which the DIS has primary responsiblity and certain ISR's and reciprocal investigations, and security or counterintelligence information which may be used in criminal prosecution. The withholding of this information will be to allow the DIS Special Cases Division, a criminal law enforcement component, to conduct effective investigations into alleged unlawful activity or crime conductive situations without jeapordizing such investigations. Knowledge of the investigations of the Special Cases Division could enable subjects to take actions to prevent detection of

criminal activities, conceal evidence, or to escape prosecution. It could also lead to intimidation of or harm to sources, informants, witnesses and their families. Information from this system will be withheld only to the extent that its release would interfere with such investigations.

Under subsection 3k(1) of the Act, properly classified material contained in DIS investigatory files is exempt from the provisions of subsection (d). This exemption will protect information, the disclosure of which would have an adverse effect on the national defense or foreign policy.

Under subsection 3k(2) of the Act, other investigatory material including certain reciprocal investigations and counterintelligence information is exempt from subsection (c) (3), (d), (e) (4) (G,H andI) and (f) until such time as action is taken regarding allegations, and after that time only to the extent that the information would identify a confidential source who furnished information under an express promise that the identity of the source would be held in confidence (or prior to the effective date of the Act under an implied promise). This exemption will permit the DIS to conduct certain law enforcement investigations effectively and to protect the identities of sources who would not otherwise provide information.

Protective Service: Under subsection 3k(3) of the Act, DIS investigatory material maintained in connection with assisting the US Secret Service (USSS) to provide protective services to the President of the United States or other individuals pursuant to section 3056 of Title 18 is exempt from subsections (c) (3), (d), (e) (1), (e) (4), (g, h and i), and (f). This exemption provision will enable DIS to continue its support of the US Secret Service without comprimising the effectiveness of either activity.

Under subsection 3k(5) of the Act, personnel security investigatory material from subsections (c) (3), (d) and (f), is exempt to the extent that the disclosure of such material would reveal the identity of a confidential source as described above. This exemption provision will allow DIS to collect information from certain sources who would otherwise be unwilling to provide information necessary to personnel security investigations.

A record input by either Army investigative activities or DIS reflecting the existence of an investigation in progress. It identifies the subject individual by name and personal identifiers, the location of the open investigation, the year indexed and the number used to locate the investigative file.

NAC PENDING TRACING

Record of a National Agency Check (NAC) investigation in progress. It identifies the subject individual by name, personal identifiers, the case number, the category of the requester of the NAC, and the type of NAC being run.

NAC HISTORY TRACING

A record of completed favorable national agency checks. It identifies the individual by name and personal identifiers, the date the NAC was completed and the agencies that were checked.

DCII NAME ONLY INDEX (NOI)

Composed of names of persons who are referenced but not fully identified in investigative files. A Name Only Index record identifies the individual by name and lists the custodian agency of the file, year indexed and the number used by the repository to locate the file. Positive identification is impossible from the index and may well be impossible from the case file itself. DIS has placed no records in this index.

**Authority for maintenance of the system:** 5 U.S.C. 301 Departmental Regulations

44U.S.C. 3101 Records Management

Memorandum, Secretary8of Defense, May 27, 1965

Memorandum, Secretary of Defense, December 3, 1965, subject: Establishment of a Central Index of DOD Investigations.

DOD Directive No. 5105.42, April 18, 1972, subject: Charter for Defense Investigative Service (DIS).

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** File tracing information is collected and maintained in the DCII so that authorized users may determine the existence and location of DOD investigative records.

NAC history information is maintained for authorized users in granting clearances, access to defense installations, entry into military service or employment in sensitive civilian positions.

Categories of users:

Components listed under the LOCATION caption are the principal users and (with the exception of DISCO) the file custodians. Listed terminal holders (with the exception of DISCO) may release general DCII information to users of their investigative records or listed in their investigative records systems descriptions in this register.

It should be noted that information contained in the system is regarded as the property of the submitting activities. DIS can neither monitor, nor assume responsibility for the propriety or accuracy of the data in the system, other than that portion belonging to DIS.

Transfer of information from this records system to other DOD components is a routine intra-agency use under the provisions of 5 U.S.C. 552a3(b)(1). The use of the DCII by terminal holders to advise requesters of the possible location of information, where there is no disclosure of personal information from the DCII, does not require an accounting.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:**

**Storage:** Master Index data is maintained in direct access storage devices, disk and data cell. It is also contained on magnetic tape for continuity of operations purposes to permit processing at alternate locations in the event of computer failure.

Name Only Index data is maintained on magnetic tape and microfiche. Each contributor is provided his portion on a quarterly basis.

**Retrievability:** Master Index records are accessed through name and at least one personal identifier (PIC). Personal identifiers are: date of birth, place of birth, social security number and the last four (4) digits of military service number. Inquiries may enter the system in card form or by being keyed in at remote terminals. A non-standard retrieval capability also exists which permits retrieval without PID, or on parts of a name, and produces references to all individuals by that name. It should be noted that in many cases, the subject's SSAN is necessary to make a positive identification.

Name Only Index records are accessed through the name or some portion thereof. Records are retrieved based on an exact match with the name submitted. Inquiries may enter the system only in card form.

**Safeguards:** Generalized validation is provided in batch retrieval through program edits to prevent unauthorized access.

User terminals with access to the Master Index are located in controlled access areas. Access to the system is limited to specified time of the day. Terminals are connected via dedicated data circuits which prevent access from standard dial-up telephones.

V40160 AUG18 75 XUM

Activities must be a part of DOD and accredited on the basis of authorized requirements before a new terminal is established or before batch requests will be honored and processed. Terminal holders, and organizations authorized access by other means, are responsible for insuring that individuals and organizations to whom they disclose index information have appropriate authority and need to know.

The computer room is located within a building controlled by security personnel at all times. Identification badges are required for entrance. Access to the computer room is controlled by a combination lock on the entrance. Critical backup files are stored in locked fireproof data safes.

**Retention and disposal:** Retained for as long as files are retained. When the record repository disposes of the file, they are responsible to delete all index tracings pertaining thereto, in accordance with established procedures. Processing of a deletion transaction flags the computer record which precludes it being given out thereafter. Such flagged records are eliminated from the system during periodic file restructuring procedures.

Open Case Tracings. Retained for as long as the investigation is open. When the investigation is completed, the contributor replaces the open case tracing with a file tracing as described above.

NAC History Tracings. Retained for a period of four (4) years from the date of completion and then automatically deleted unless specific action is sooner taken to delete the record. Should a subsequent favorable NAC be completed, the entering of a new history record will delete the first history record.

NAC Pending Tracings. Retained until completion of the NAC at which time they are replaced by a NAC History or file tracing, unless sooner deleted by the originator.

**System manager(s) and address:** Director, Defense Investigative Service, Washington, D. C. 20314

**Notification procedure:** Identity of Official: Assistant for Information, Defense Investigative Service (D0020), Washington, D. C. 20314.

Information Required: Full name and all maiden and alias names under which files may be maintained and personal identifiers listed under RETRIEVABILITY. Note, Social Security Account Numbers may be necessary for positive identification of certain recors.

Office Which May be Visited: DIS Information Office, Room 2H043, 1000 Independence Avenue, Washington, D. C. 20314.

Proof of Idenity: Check of personal documents.

**Record access procedures:** Access may be obtained through the Information Office at the address previously listed.

**Contesting record procedures:** The agency's rules for access to records, contesting contents and appealing initial determinations by the subject individual may be obtained from the Assistant for Information, at the above address.

**Record source categories:** DOD investigative organizations listed under the LOCATION caption, excluding DISCO, and additionally:

Defense Supply Agency, ATTN: DSAH-T Cameron Station, Alexandria, Virginia 22310

Director of Security, National Security Agency, ATTN: M-552 Fort Meade, Maryland 20755

Assistant Chief of Staff of Intelligence, Department of the Army, ATTN: Counterintelligence Division, Washington, D. C. 20315 (ACSI)

**Systems exempted from certain provisions of the act:** In accordance with Subsection 3(j)(2) of the Act, certain references from criminal law enforcement components contained in this system of index records may be exempted from the provisions of subsections (c)(3), (c)(4), (d) and (e)(8). this exemption will allow the contributing components to conduct effective investigations into alleged unlawful activity or crime conductive situations and use the DCII without jeopardizing such investigations. Knowledge of investigations by criminal law enforcement components would enable suspects and subjects to take actions to prevent detection of criminal activities, conceal evidence or to escape prosecution. It could also lead to intimidation of or harm to informants, witnesses, sources and their families. information from this system will be withheld only to the extent that its release would interfere with such investigations.

**System manager(s) and address:** The USUHS officer who will be responsible for the Applicant Record System is the Assistant Dean for Academic Support (business address: 6917 Arlington Road, Bethesda, Maryland 20014).

**Notification procedure:** Inquiries regarding the system should be directed to the Assistant Dean for Academic Support, 6917 Arlington Road, Bethesda, Maryland 20014.

**Record access procedures:** Request for access for an individual's file should be made by either writing or calling the Assistant Dean for Academic Support.

For written requests the information should contain the full name of the individual, current address and telephone number.

**Contesting record procedures:** The Agency's rules for access and for contesting contents and appealing initial determinations may be obtained from the USUHS Administration Office, 6917 Arlington Road, Bethesda, Maryland 20014.

**Record source categories:** The bulk of the information in the system will be furnished by the applicants. It will be either prepared by them personally, or submitted by other individuals/agencies in their behalf at their (the applicants') specific request. The remaining elements of the systems, the data not furnished by the applicants, will consist of evaluative records prepared and developed by admissions personnel based on interviews, school administered tests, and analyses of applicant records.

**Systems exempted from certain provisions of the act:** NONE

### MICHIGAN DEMOCRATIC PARTY AND NATIONAL REPUBLICAN CONGRESSIONAL COMMITTEE

#### Advisory Opinions

AO 1975-2: MICHIGAN DEMOCRATIC PARTY

This advisory opinion is rendered under 2 U.S.C. 437f in response to a request submitted by the Michigan Democratic Party (hereinafter MDP) and published as AOR 1975-2 in the June 24, 1975, FEDERAL REGISTER (40 FR 26660). Interested parties were given an opportunity to submit written comments pertaining to the request.

The advisory opinion request by the MDP raises several issues. Each issue is discussed separately in the following advisory opinion.

1. The first question concerns the practice by the Michigan Democratic Party of maintaining two separate bank accounts—one for Federal election use and one for state election use. The party has established two separate accounts to assist it in meeting the different reporting requirements of the Federal law and of the Michigan state laws. The Federal election account is not the "official" account of the Michigan Democratic Party. The party's question is, then, whether the money from the Federal election account can be used for the 18 U.S.C. 608 (f) state committee expenditures.

Section 608(f) does not specify that the expenditures made under this section must be from the "official" account of the state party. Therefore, the general section on campaign depositories, 2 U.S.C. 437(b), controls. Subsection 437 (b)(2) provides:

> The treasurer of each political committee (other than a political committee authorized by a candidate to receive contributions or to make expenditures on his behalf) shall designate one or more national or State banks as campaign depositories of such committee, and shall maintain a checking account for the committee at each such depository. All contributions received by such committee shall be deposited in such accounts. No expenditure may be made by such committee except by check drawn on such accounts, other than petty cash expenditures as provided in subsection (b).

The MDP has complied with the first requirement of this subsection by establishing a separate account for Federal elections. In addition, the MDP must designate the bank in which it maintains its separate account for Federal elections (or any other National or State banks) as the campaign depository of the committee. All contributions received or expenditures made pertaining to Federal elections must be deposited in or drawn from this account of the party. Each local party committee which intends to solicit contributions, receive contributions, or make expenditures in connection with any Federal election must establish a separate account for Federal election purposes as described above.

All contributions received by the MDP which the contributor designates to be used for Federal election purposes and all contributions received which the MDP intends to use for Federal election purposes must be deposited in this account. Since the individual or political committee whose contribution is deposited in this account is making a contribution within the definition of 18 U.S.C. 591(e) the contribution limitations established in 18 U.S.C. 608(b) are applicable. In addition, the sections in Title 18 which prohibit contributions by certain types of contributors are applicable. 18 U.S.C. 610, 611, 613, 614 and 615.

2. The second question raised by the Michigan Democratic Party concerns the application of the expenditures limitations in 18 U.S.C. 608(f) to the state and local committees in Michigan and the proper place of filing reports by the local committees. Subsection 608(f)(3) provides:

> The national committee of a political party, or a State committee of a political party, *including any subordinate committee of a State committee*, may not make any expenditure in connection with the general election campaign of a candidate for Federal office in a State who is affiliated with such party which exceeds * * * (explanation of formula for determining limitation (emphasis added)

The term subordinate, as used in this section, includes all "branches" or "subsidiaries" which are officially a part of the State Party organization. By statute, each major party in Michigan is required to establish a county committee in each county, a district committee in each Congressional district, and a State central committee. (Hereinafter the County and Congressional committees are referred to as local committees.) Although the local committees of each party select the members of the state central committee of that party, each committee on each level retains independent statutory existence and exercises a substantial degree of autonomy with respect to all other committees in its finances and operations. When applied to the political party structure in Michigan, the term subordinate as used in § 608 includes all statutorily required local committees and any other committee which, by virtue of the bylaws of the Michigan Democratic Party, is part of the Democratic Party structure in the state. Therefore, all such committees are included within the state party *expenditure* limitation established in § 608(f)(3).

The Michigan Democratic Party may administer the § 608(f)(3) expenditure by one of the following methods, which the Commission does not intend to be an exhaustive statement of the alternative methods. In the first instance, the state central committee will be responsible for insuring that the expenditures of the entire party organization are within the limitations established in § 608(f)(3). Any § 608(f)(3) expenditure made by a local committee would have to be reported to the state central committee. The state central committee would be responsible for filing reports with the Commission pertaining to all § 608(f)(3) expenditures made by any branch of the party structure.

In the alternative, the state central committee may allocate the § 608(f)(3) expenditure among the local party committees in the following manner. The state committee and the local committees first agree upon an allocation formula whereby a portion of the total § 608(f)(3) expenditure limitation for each Federal candidate is allocated to local committees. The state committee, then, files a statement with the Commission setting forth the agreed upon allocation. This "allocation statement" shall contain, in addition to the allocation for each committee, the following information with regard to each committee which has not filed a statement of organization with the Commission: the name and address of the committee; the name, address, and position of the custodian of books and accounts; the name, address and position of other principal officers; and a listing of all banks, safety deposit boxes, or other repositories used. If the local committee has already filed a statement of organization, the "allocation statement" must contain the name and address of the local committee and the amount allocated to that committee, and state that a statement of organization has already been filed by that committee. Any changes in the information pertaining to the local committees which was submitted in the "allocation statement" must be reported by the local committee to the Commission within 10 days following the change.

Once the "allocation statement" has been filed with the Commission, the actual allocation to a local committee may be changed by an amended report submitted to the Commission by the state central committee. This report must be signed by authorized agents of both the state central committee and that particular local committee and state that both parties have agreed that the original allocation should be changed and set forth the amended allocation.

Each local committee (other than a political committee) which is listed in the "allocation statement" will be required to file appropriate reports of expenditures with the Commission if the total § 608(f)(3) expenditure allocation is in excess of $100.[1] In addition, each local committee will be responsible for insuring that all § 608(f)(3) expenditures by that local committee are within the allocated amount. If the local committee exceeds its allocation as set forth in the "allocation statement" and, as a result, the total party expenditures in the state exceed the overall expenditure limitation in § 608(f)(3), the local committee, rather than the state party officials, will be charged with the responsibility for exceeding the expenditure limitation.

Although § 608(f)(3) specifically includes the local committees within the state party *expenditure* limitation, the local committees may be considered separate organizations for the purposes of applying the *contribution* limitations in § 608(b). If the local committees are in fact truly independent of the state central committee, then each local committee may contribute to Federal candidates. If the local committee qualifies under § 608(b)(2), its contribution limitation for each candidate is $5,000. Otherwise, the limitation for each candidate is $1,000 per candidate, 18 U.S.C. 608(b)(1). Each local committee is responsible for filing with the Commission any appropriate reports made necessary by reason of its contributions to Federal candidates.

3. The next question raised is whether the state committee is required to file the required reports and statements with the appropriate principal campaign committee or with the Commission. The state committee must file reports of any contributions received which are "earmarked" for a particular candidate with that candidate's principal campaign committee. The committee must also file a report pertaining to expenditures which are authorized by the candidate to be made on his or her behalf with the appropriate principal campaign committee.[2] Reports pertaining to all contributions and expenditures will be filed with the Commission.[3] If the state committee has not registered, the statement of organization should be filed with the Commission.

4. Question 4 concerns the newsletter the Michigan Democratic Party publishes and sends to its members. The question is whether the newsletter comes within the expenditure exemption in 18 U.S.C. 591(f)(4)(C), which provides:

> (C) Any communication by any membership organization or corporation to its members or stockholders, if such membership organization or corporation is not organized primarily for the purpose of influencing the nomination for election, or election of any person to Federal office;

Although a state political party does endorse federal candidates, many of the activities of the party are generally not to influence directly Federal elections, but to build a strong party organization. A newsletter of a political party will come within this expenditure exemption if the newsletter is distributed only to dues paying members of the party. Moreover, the state political party or other entity sending the newsletter must not be "organized primarily for the purpose of influencing the nomination for election, or election, of any person to federal office." 18 U.S.C. 591(f)(4)(C). This concept of being "organized primarily" for such purposes will be particularized by Commission regulations to be issued in the near future.

It is relevant to note that the party may solicit contributions to the Democratic Party in this newsletter (although not for any federal candidate). Such a solicitation will not make the newsletter an expenditure. Section 591(f)(4)(1) exempts from the definition of expenditure any costs incurred by a political committee with respect to the solicitation of contributions to such political committee, unless the solicitation is done by general public advertising.

5. The last question concerns the reporting requirements for the local committees of the Michigan Democratic Party which do not receive contributions for federal elections in excess of $1,000 or which are not allocated more than $100 of MDP's § 608(f)(3) expenditures.[4] The question is whether 2 U.S.C. 437a, pertaining to reports by certain persons, requires such committees to file reports with the Commission. In particular, the MDP asks whether the phrase "commits any act directed to the public for the purpose of influencing outcome of an election" as used in § 437a, includes such routine activities by political committees as putting up a poster for a federal candidate.

The local committee of a state political party organization which is not required to file reports as a political committee or as a "person" under 2 U.S.C. 434(e) and which is not required to file reports of § 608(f)(3) expenditures, will not be required to file reports under § 437a. Certain "routine activities" of political committees described in the request could frequently come within the exemptions to the definition of contribution in 2 U.S.C. 431(e) and 18 U.S.C. 591(e). For example, a person who puts up posters for a federal candidate is usually volunteering his or her services without compensation. If that is the case, such activity is exempt from the definition of contribution by 2 U.S.C. 431(e)(5)(A) and 18 U.S.C. 591(e)(5)(A).[5]

This advisory opinion is issued on an interim basis only pending the promulgation by the Commission of rules and regulations of general applicability. Any interpretation or ruling contained herein is to be construed as limited to the facts of the specific advisory opinion request and should not be relied on as having precedential significance except as it relates to those facts at the time of its issuance.

AO 1975-3: NATIONAL REPUBLICAN CONGRESSIONAL COMMITTEE

This advisory opinion is rendered under 2 U.S.C. 437f in response to a request submitted by the National Republican Congressional Committee (hereinafter NRCC) and published as AOR 1975-3 in the June 24, 1975, FEDERAL REGISTER (40 FR 26660). Interested parties were given an opportunity to submit written comments pertaining to the request.

This request states that NRCC provides certain services and property to Republican Members of the House of Representatives (hereinafter Member). These services are:

1. The NRCC's preparing and printing newsletters, questionnaires and other printed matter to be mailed by Members under the Congressional frank.

2. The NRCC's reprinting of excerpts from the Congressional Record to be mailed by Members under the Congressional frank.

3. The NRCC's paying the cost of tabulating responses to questionnaires sent by a Member to his constituents under the Congressional frank including the cost of using a computer for such tabulation.

4. The NRCC's reimbursing a Member for the cost of newsletter paper purchased by the Member from the House of Representatives Stationery Room to be used by the member in preparing materials to be mailed by the Member under the Congressional frank.

The NRCC requests the Commission to rule on the question of whether the described activities are noncampaign in nature and, therefore, do not count against the NRCC's contribution limitation to a candidate [18 U.S.C. 608 (b)(2)] and do not apply to the Member's election expenditure limitations [18 U.S.C. 608(c)(1)(E)].

It is not necessary for the Commission at this time to reach the question of whether the activities described in paragraphs 1, 2 and 4 are noncampaign in nature. 39 U.S.C. 3210(f) is applicable to material sent under the Congressional frank. This section provides:

> Notwithstanding any other provision of Federal, State, or local law, or any regulation thereunder, the equivalent amount of postage determined under section 3216 of this title on franked mail mailed under the frank of the Vice President or a Member of Congress, and *the cost of preparing or printing such frankable matter for such mailing under the frank, shall not be considered as a contribution to, or an expenditure by, the Vice President or a Member of Congress for the purpose of determining any limitation on expenditures or contributions* with respect to such official, imposed by any Federal, State, or local law or regulation, in connection with any campaign of such official for election to any Federal office. (Emphasis added.)

[1] The Commission will be issuing regulations pursuant to 2 U.S.C. 434(e) which will detail this reporting requirement.

[2] This does not include 18 U.S.C. 608(f)(3) expenditures.

[3] An Interim Guideline pertaining to the filing of the July 10 reports was published in the FEDERAL REGISTER on June 26, 1975. Regulations pertaining to reports due on October 10 and thereafter will be published in the FEDERAL REGISTER prior to the date when the reports are due.

[4] See discussion relating to question 2.

[5] 2 U.S.C. 437a requires any person (other than an individual) "who expends any funds or commits any act directed to the public for the purpose of influencing the outcome of an election" to report the funds received by that person as if they were contributions under 2 U.S.C. 431(e) and payments of such funds as if they were expenditures under 2 U.S.C. 431(f). Therefore, even if the local committee were required to report under § 437a, the local committee would not be required to report the activity described in the request if the person putting up the posters was volunteering his services without compensation. The individual volunteering his services would not be making a contribution to the local committee since such volunteer activity is exempted from the definition of contribution. The local committee would not, in these circumstances, be making an expenditure since it is not compensating the individual for his time.

As long as the materials prepared by the NRCC are suitable to be mailed under the frank and, in fact, are mailed under the frank, the cost of preparing or printing the materials will not be charged against the contribution or expenditure limitations in 18 U.S.C. 608. For purposes of this opinion, the Commission assumes that such mailings are suitable to be mailed under the frank.

In paragraph 3, the NRCC requests the Commission to rule on its practice of paying the cost of tabulating responses to questionnaires sent by a Member to his constituents under the Congressional frank including the cost of using a computer for such tabulation. The exemption in 39 U.S.C. 3210(f) only extends to the cost of preparing or printing the franked matter. Therefore, in determining whether the cost of tabulating responses is a contribution or expenditure subject to the appropriate limitations in 18 U.S.C. 608, the question is whether such activity is a contribution or expenditure within the general definition of 18 U.S.C. 591 (e) and (f). The Commission has proposed regulations providing that the cited definitions apply to these activities and that they are therefore subject to limitation under 18 U.S.C. 608.

This advisory opinion is to be construed as limited to the facts of the request and should not be relied on as having any precedential significance except as it relates to those facts at the time of its issuance.

Dated: August 11, 1975.

## OLD OIL ALLOCATION PROGRAM

Entitlement Notice for June, 1975

V 40 160 AUG 18 75 XUM

## FEDERAL ENERGY ADMINISTRATION

### OLD OIL ALLOCATION PROGRAM

### Entitlement Notice for June 1975

In accordance with the provisions of 10 CFR 211.67 relating to FEA's old oil allocation program, the monthly notice specified in § 211.67(i) is hereby published.

Based on reports submitted to FEA by refiners as to crude oil receipts and crude oil runs to stills for June 1975 and an application of the entitlement adjustment for small refiners provided in 10 CFR 211.67(e), the adjusted national old oil supply ratio for June 1975 is calculated to be .360078.

The issuance of entitlements for the month of June 1975 to refiners is set forth in the Appendix to this notice. The Appendix lists the name of each refiner to which entitlements have been issued, the number of entitlements issued to each such refiner, and the number of barrels of old oil included in each such refiner's adjusted crude oil receipts.

Pursuant to 10 CFR 211.67(i)(4), FEA hereby fixes the price at which entitlements shall be sold and purchased for the month of June 1975 at $7.82, which is the exact differential as reported for the month of June between the weighted average costs to refiners of old oil and of new, released, stripper well and imported crude oil.

In accordance with 10 CFR 211.67(b), each refiner that has been issued fewer entitlements for the month of June 1975 than the number of barrels of old oil included in its adjusted crude oil receipts is required to purchase a number of entitlements for the month of June 1975 equal to the difference between the number of barrels of old oil included in those receipts and the number of entitlements issued to and retained by that refiner. Refiners which have been issued a number of entitlements for the month of June 1975 in excess of the number of barrels of old oil included in their adjusted crude oil receipts for June 1975 shall sell such entitlements to refiners required to purchase entitlements. In addition, certain refiners are required to purchase or sell entitlements to effect corrections for prior reporting errors pursuant to 10 CFR 211.67(i)(5).

The listing contained in the Appendix specifies negative volumes of old oil receipts as to two refiners due to corrective adjustments. The total number of entitlements issued to each such refiner under the listing includes the number specified in the "issued" column, as well as a number of entitlements equal to the number of barrels of old oil shown as the negative volume. In addition, the listing specifies a negative volume of old oil receipts and a negative entitlement issuance as to one refiner due to corrective adjustments to that refiner's volumes of old oil receipts and crude oil runs to stills. The total number of entitlements issued to that refiner under the listing is equal to the number of barrels of old oil shown as the negative volume less the negative entitlement issuance shown in the "issued" column.

The listing of refiners' old oil receipts contained in the Appendix reflects any adjustments made by FEA pursuant to § 211.67(h).

The listing of entitlement issuances contained in the Appendix also reflects relief granted in Decisions and Orders issued by FEA's Office of Exceptions and Appeals. The following refiners are not shown in the listing due to their having been exempted from the entitlement purchase requirements of the program under exception decisions: Famariss, Fletcher, Good Hope, Husky, J&W, Midland, Navajo, Oil Shale, OKC, Pasco, Powerine, Rock Island, Thagard and Young. The aggregate volume of old oil receipts for these firms for June 1975 was 6,352,924 barrels, which was not taken into account for purposes of making the calculations in the listing.

The total number of entitlements required to be purchased and sold under this notice is 18,675,499.

Payment for entitlements required to be purchased under 10 CFR 211.67(b) for June 1975 must be made by August 31, 1975. On or prior to September 10, 1975, each firm which is required to purchase or sell entitlements for the month of June shall file with FEA the monthly transaction report specified in 10 CFR 211.66(i) certifying its purchases and sales of entitlements for the month of June. FEA will mail monthly transaction report forms for the month of June to reporting firms in August 1975. FEA requests that firms which have been unable to locate other firms for required entitlement transactions by August 31, 1975 contact FEA at 202-634-7615 to expedite consummation of these transactions. For firms that have failed to consummate required entitlement transactions on or prior to August 31, 1975, FEA may direct sales and purchases of entitlements pursuant to the provisions of 10 CFR 211.67(j).

This notice is issued pursuant to Subpart G of FEA's regulations governing its administrative procedures and sanctions, 10 CFR Part 205. Any person aggrieved hereby may file an appeal with FEA's Office of Exceptions and Appeals in accordance with Subpart H of 10 CFR Part 205. Any such appeal shall be filed on or before September 17, 1975.

Issued in Washington, D.C. on August 12, 1975.

DAVID G. WILSON,
*Acting General Counsel.*

# RESOLUTION CHART

100 MILLIMETERS

**INSTRUCTIONS** Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "T-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and 100 20 = 5.

Examine "T-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and 7.9 x 5 = 39.5 lines per millimeter recorded satisfactorily. 10.0 x 5 = 50 lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.
